

A GROUP of 10 agents have recently returned from Switzerland, where they enjoyed the country's boutique cities of Zurich, Basel, Lucerne and Montreux and the adventurous Interlaken, the Jungfrau Region and Zermatt, all via the spectacular Swiss Travel System of trains, buses, ferries and mountain cableways.

Agents experienced various types of accommodation; e-biking; cruising; wine tasting; and the many museums accessible with the Pass including the FIFA museum and Vitrahaus.

In their exploration of mountains, agents started with Mt Titlis where they walked across Europe's highest suspension bridge.

The Schilthorn and its revolving Piz Gloria restaurant was another highlight, as was Jungfrauoch, Top of Europe, home to the highest mountain railway. Before heading home, agents visited Zermatt, home of the iconic Matterhorn.
