Turkish Airlines enters Oz

A NEW codeshare between Turkish Airlines and its Star Alliance partner Asiana has seen TK flight numbers offered from Australia for the first time.

The move is effective immediately, with TK codesharing on Asiana's daily OZ601/602 services between Sydney and Seoul, connecting onwards on Turkish Airlines metal to Istanbul.

It's the first concrete move towards establishing TK's own flights to Australia, with the carrier's ceo Temel Kotil last year indicating the possibility of Sydney services as an extension of Turkish Airlines flights to Jakarta (**TD** 20 Dec 10).

At the time he said that the Sydney route could launch as early as the last quarter of 2011.

The new TK/OZ codeshare is just one of several Star Alliance expansions now showing in GDS, with Asiana also boosting its joint flights with Singapore Airlines.

Under these changes the OZ code is now available on SIA's Perth flights, giving Asiana an additional Australian destination.

OZ is also codesharing on SQ flights to Auckland, Jakarta and Cape Town effective immediately.

Minor lifts Oaks stake

THAI fast food franchisor and hotelier Minor International now holds 92.37% of the shares in its takeover target, Aussie firm Oaks Hotels and Resorts.

The move above 90% means that the suitor is now able to proceed to compulsory acquisition of all outstanding Oaks shares.

Minor said its 52c per share offer will not be increased, and that the 7pm on Fri 17 Jun closing date for the bid "will not be further extended".

The company warned that those shareholders who wait to have their shares compulsorily acquired will receive payment later than those who accept the offer.

SkyMiles Shopping opened to Aussies

DELTA Air Lines has opened a SkyMiles Shopping online site to Australian members of its loyalty program for the first time today.

Goods on offer include apparel, books, music & electronic goods.

GM of SkyMiles Asia Pacific and Latin America, Marc Ferguson says the shopping site is "another way we're adding value to the SkyMiles program in Australia."

"It enhances options to earn miles while strengthening our overall portfolio of SkyMiles offerings in Australia," he said.

See asiashopping.delta.com.

MEANWHILE, Delta ceo Richard Anderson has said the carrier is planning to consolidate a range of operations in the US.

Company training centres for flight attendants and pilots, along with engineering and technical support teams will be relocated from Minneapolis to Atlanta.

The winning bid, to be announced in Aug, will help create plans for the 1000 ha of developable land at the airport.

NATURE gives...and takes away.

A storm in central Ohio in the USA has destroyed a landmark tourist attraction which has been in place for over 500 years.

The white oak tree, thought to predate the 1492 arrival of Christopher Columbus in the New World, was a popular place for visitors to the town of Lancaster, about 50km from the city of Columbus.

Locals said wild winds caused the ancient tree to "split as easily as a banana".

YOU certainly have to admire the ingenuity of teenagers at a school in Hamilton, NZ.

Passengers in planes travelling over Fairfield College haven't commented on graphic images in the school's playing fields, which appear to have been etched using weedkiller.

CTC after support to lure Aussies longer

THE Canadian tourism authority believes it may be necessary to garner support from its nearest neighbour and the cruise industry in order to extend the length of stay Australians spend in Canada.

According to the Canadian Tourism Commission's 42-page Market Insights report on Australia that was released this week, research from a recent consumer study indicated that 20%-25% of travellers are transiting to Canada by cruise.

The report suggests "that Canada should not only work with the US and trade in

promoting dual itinerary holidays, but with cruise lines in extending passenger stays before and after their cruise."

Airfare pricing to Canada is also an area that the CTC classes as "concerning" due to "the number of Aussies citing that cost considerations, such as air, play a major role in preventing them to travel to Canada altogether, with 76% citing general high costs as a barrier," the report states.

Meet Bratton's new baby

ABOVE: Australian cruising pioneer Sarina Bratton this morning presided over the official naming ceremony of Orion Expedition Cruise's new *Orion II*.

The event took place in Seattle, USA, with Bratton selecting three Godmothers from Orion's legion of highly satisfied past guests.

Jill Bennett, Laurel Norris and Shirley Turtle, pictured above, are the most travelled females on *Orion*, having between them enjoyed more than 50 voyages on the flagship.

Speaking at the launch, Bratton contrasted Orion's style with that of the huge cruise ships operated by other lines.

"Instead of a theatre with wide screen movies we offer the real thing: 3D outdoor 360 degree panoramas to far horizons, with surround sound emanating from cascading waterfalls or the rhythmic beat of drums," she said.

Orion II departs Vancouver today for a 24 night voyage taking in Alaska, the Aleutian Islands, Kamchatka Peninsula and Kuril Islands, heading for Kuril, Japan.

Many guests who travelled on *Orion's* first voyage from Tahiti to Australia in 2005 are also onboard the *Orion II* inaugural.

GM Max Kruse says the company is now focusing on new markets and expanding business with existing customers as well as "transforming its operations to become more efficient".

VA to codeshare to Bali, South Pacific

THE International Air Services Commission this morning confirmed a series of applications from Virgin Australia which will further the consolidation of operations under its new brand.

The carrier is seeking a variation of determinations on the Indonesia route to allow V Australia to code share on Virgin Blue services to Denpasar.

"Although Virgin Australia's services on this route are currently operated by Virgin Blue, we are attending to the relevant regulatory arrangements which will see all our domestic and international services operated by Virgin Australia by the end of 2011," the application says.

Virgin is also seeking to vary its capacity allocations to enable V Australia to code share on Pacific Blue services to Rarotonga, Honiara, Nuku'alofa, Port Moresby and Port Vila.

The carrier said it's recently sought to have V Australia designated under the air services arrangements with the Cook Islands, Solomon Islands, Tonga, Papua New Guinea and Vanuatu.
