## Air India kks Aug launch

AIR India has commenced taking reservations for new daily flights between India and Australia, commencing Aug, as exclusively revealed first by *Travel Daily*.

Although now two weeks after an originally slated 15 Aug debut (TD 12 Jun), AI's long-rumoured triangular service from Delhi to Sydney and Melbourne will finally kick off on 29 Aug, according to NSW Premier Barry O'Farrell (TD breaking news yesterday), some 16 years since AI last flew here.

Flights will operate four times weekly from Delhi to Sydney, connecting to Melbourne before returning to the Indian city, and are complemented by a thrice weekly reverse operation using Boeing 787 Dreamliner aircraft.

The move will see Air India also become the first carrier to fly 787s to (and within) Australia, trumping Jetstar (TD 04 Jul) and Japan Airlines.

Tourism Australia welcomed AI's decision, with md Andrew McEvoy telling TD yesterday "key to unlocking India's long term tourism potential is improved air access and capacity."

"Securing direct flights to Australia is critical to securing a share of the 50 million Indians

expected to travel overseas by 2020," McEvoy said.

"These new direct services soon to be launched by Air India represent a huge boost in realising the full potential of this important market."

In 2012, around 160,000 Indians visited Australia, spending nearly \$800 million, with TA predicting the market has the ability to rise in annual value to \$2.3 billion and deliver 300,000 visitors by 2020.

Melbourne Airport ceo Chris Woodruff today applauded Air India saying it will strengthen ties between Victoria and India.

The first revived Air India service is scheduled to arrive in Australia on 30 Aug, according to GDSs.

## Brindi ink Qantas codeshare

**PASSENGERS** travelling from five regional centres in Australia will be able to travel through to Qantas domestic or int'l destinations on one ticket purchased through Brindabella Airlines under a new codeshare pact signed today between the two carriers (**TD** breaking news).

The agreement, announced this morning in the northern NSW town of Moree, is Brindabella Airlines' first codeshare agreement since the carrier commenced operations in 1994.

Sales opened today on four of the five routes, being Sydney to Newcastle and Moree as well as Brisbane to both Tamworth and Coffs Harbour, all valid for travel from the beginning of next month. Services from Sydney to

Orange will be added to the new agreement from 01 Sep.

Making the announcement in Moree this morning, Brindabella Airlines chief commercial officer James Blake said the deal will allow for broader opportunities for its passengers.

"Developing the working relationship with Qantas allows our customers to benefit from through check-in, greater efficiencies in sales distribution so we can concentrate on growing the number of passengers who travel across our network," Blake commented.

Flights on the five regional routes will all be operated by FQ's Jetstream 41 aircraft, of which the carrier announced four new units would join the fleet in coming months (**TD** 13 Jun).

Brindabella confirmed last week that passengers travelling on all of its services would be able to earn and burn Qantas Frequent Flyer points (**TD** Thu).

Qantas domestic ceo Lyall Strambi welcomed the agreement, adding his pleasure at QF being able to offer smooth connections for Brindabella customers on selected routes.

"We are delighted to be extending our exclusive benefits to our many customers travelling on selected routes serviced by Brindabella," Strambi said.

MD Paul Hole says the uptake of river cruising in Asia has been robust, with a 400% year-on-year growth rate last year and an 83% increase this year.

Cruise options range in length from 4 to 22 days, including a new four-night Mystical Luang Prabang & Cruise option.

Velocity frequent flyer ceo Neil Thompson officially launched the innovation, saying the carrier flies almost 30,000 pets each year around the country.

"We are delighted to make their flying experience even more rewarding by unleashing Australia's first frequent flyer program for pets," he said.

Brown was similarly enthusiastic, saying "now, not only will our dogs and cats give back to us in the form of unconditional love, but also in the form of our next holiday or retail purchase through points".
