

Whose flag is this?

THE red stripe and yellow star in the centre of this flag were likely inspired by the independence movement in Vietnam, despite the fact that this country is located on a different continent.

The flag belonged to one of the largest groups fighting for independence for this country

and became the official flag in 1975 when the previous ruling nation withdrew.

The black part of the flag symbolises the people of the nation, while the machete and cogwheel represents workers and labourers.

Do you know whose flag this is?

THE British city of York is claiming a UK first with the launch of a sensory travel guide which allows potential visitors to use their olfactory sense to experience the destination before they arrive.

The new Smell York guidebook features scents such as "Afternoon Tea," "York in blossom," "Railway Heritage" and "York's Antiquities" - a musty infusion of leather, old books, wood and dust.

There's also "Spooky scents" - strong smells of sulphur and roses which are said to be often associated with spirits, and the delightful "Foodies Favourite" - a mature smell of strong Yorkshire cheese.

YOU'VE heard of a bird strike affecting an aircraft - but how about a fish strike?

According to the *Tampa Tribune*, a Gulfstream G-IV jet had to abort a takeoff from the nearby MacDill Air Force Base last year after it hit a "nine-inch sheepshead fish".

The pilot said he was nearing the point of lift-off "when an osprey with something in its claws flew in front of our aircraft".

They heard a thud and thought they had hit the bird - but after investigating found only a dead fish on the runway.
